

Natural alkalizer/ionizer, mineralizer, and oxidation cartridge

• **In stage 1**, water flows through pre one - micron filter pads (1 micron equals 1/25,000th of an inch), which remove suspended particles such as silt, sediment, cyst (Giardia, Cryptosporidium), sand, rust, dirt, and other undissolved matter.

• **In stage 2 and 3**, water travels through special blend of natural calcium carbonate media **alkalize/ionize and** remineralizes the water and raises the pH level of your water. It reduces acidity in the body and it will produce natural calcium, magnesium, and potassium ions that can be absorbed 100% in the human body. These Essential Minerals are vital to our organs. These are the symptoms when lacking of essential minerals: fatigue, insomnia, loss of hair, depression, diabetes, high blood pressure, asthma, decayed teeth, PMS, migraines, heart disease.

- Produces large quantities of hydrogen and oxygen
- Produces Alkali Calcium Ionized Water
- Provides more energy and increases the metabolic process
- Prevents reproduction of germs and virus
- Reverses aging, due to reduction of acid wastes
- Activates water molecules in our body
- Helps the body dissolve wastes and makes it easier to dispose of them safely

The Natural alkalizer/ionizer, mineralizer, and oxidation cartridge is effective and affordable. It turns water into a perfect Natural Alkali Calcium Ionized Water. The Natural alkalizer/ionizer, mineralizer, and oxidation cartridge simply gives back minerals such as ionized calcium, magnesium, potassium ion, which were taken away by Reverse Osmosis.

In stages 4 and 5, water travels through a special blend of natural Infra-Red and mineral balls.

Infra-Red rays are the invisible portion of the sunlight spectrum that has been found to promote growth and health to living cells in plants, animals, and humans. By using a far infrared water filtration system, some have estimated an enrichment of treated water that strengthens various organs within the body.

Recent studies in the biotechnology field have revealed that the far-infrared rays play an important role for formation and growth of all living organisms. For this reason, these specific far-infrared rays are called "biogenetic rays". Water and proteins are the integral parts of all living organisms on Earth. Water molecules are always oscillating. If water molecules are exposed to oscillating action of an 8-10 micron wavelength (some as wavelength of water molecular oscillation), the "resonance" occurs between the two oscillations. The Infra-Red and mineral balls have the ability to penetrate the human body in order to activate cells. With continuous movement, the rays are alleged to reactivate cells to help strengthen the micro-circulatory system. The micro-circulatory system is often the cause of various ailments. By strengthening this system, may reduce or even reverse ailments that have plagued their bodies for years.

The effect of Far-infra-red rays on the human body are as follows:

- *Activates water molecules in the body*
- *Strengthens various organs within the body*
- *Slows down the aging process*
- *Energizes water while supplying superior hydration*
- *Improves the oxygen level in the body*
- *Smoothens the flow of blood and reduce fat, chemicals and toxins in the blood.*
- *Reduces toxic from the body*
- *Reduces the acidic level in the body*
- *Improves the nervous system functionality*
- *Improve oxygen level in our body*

The resonance causes ionization of water into hydrogen ion and hydroxide ions at an extremely high speed (10-12 sec). This ionization is called "water activation." If such activation of water occurs in human cellular tissues, the metabolism of cells and excretion of residues from cells or nutrition are enhanced. Water makes up the 70% of mass of the human body. The Infra-Red and mineral balls is able to activate, revitalize, reactivate, develop and strengthen various organs in our bodies when it is absorbed. In the various organs of the human body, the circulatory system plays an important role, especially in the micro-circulatory system. When there are problems with the micro-circulatory system, various ailments will occur. The Infra-Red and mineral balls vibrating at a frequency similar to that of the human body are able to penetrate the body activates cells and reactivates as well as strengthens the micro-circulatory systems. It regulates the blood flow and blood in the blood vessels, which have been blocked due to blood clots and at the same time reactivate the vital energy in the body. Elevation of the immunity of our bodies against diseases is another benefit of Infra-Red waves. This is part of the effects of the improvement in the micro-circulatory system and metabolism of the body. It helps to slow down the aging process, increase resistance against diseases and increases longevity. Infra-Red causes resonance with water molecules. It ionizes and activates water molecules in our cells and blood thus improving our blood circulation and health condition.

Far-infra-red are also used in:

- Prevention of bacteria growth
- Relief of pain
- Softening of hard water
- Eliminating bad odors in water
- Strengthening and health improvement
- Speeding up repair of body cells
- Balancing of acid level in the body
- Normalization of blood cholesterol
- Preventing molding
- Enhancing and maintain freshness
- Helping plants to grow better

There is no age limit for using this product. It can be used from the day you are born and throughout life. There are no side effects of exposure to Infra-Red. The real effects can be measured in improved stamina, health and overall good living.

In stages 3 and 4, water travels through a special blend of natural calcium carbonate media which alkalizes/ionizes and remineralizes the water and raises the pH level. It reduces acidity in the body and produces natural calcium, magnesium, and potassium ions that can be absorbed 100% in the human body. These essential minerals are vital to the organs and the symptoms when lacking essential minerals are fatigue, insomnia, loss of hair, depression, diabetes, high blood pressure, asthma, decayed teeth, PMS, migraines, heart disease.
